

Kawasaki Proglazer[®] Propane-Powered Floor Machines

Built to last, ruggedly
constructed, with 1850 RPM
burnishing power.

High-Gloss Polishing

Some facilities and cleaning applications demand more than what electric and battery units can provide. And when it comes to maintaining a high gloss for large floor areas, controlling costs is key. Speed and efficiency are an absolute must. Tornado's[®] Kawasaki ProGlazer Propane-Powered Floor Machines have it all when it comes to meeting maintenance demands while making the most of your investment in floor care equipment. Our ProGlazer[®] propane burnishers set new standards for quality and performance in the floor maintenance industry. Ease of operation, durability, and reliability make these units the propane-powered cleaning equipment of choice for the floor care professional.

Premium Engines

A minimum 1850 RPM are at your fingertips, and all units feature the latest in engine technology from Kawasaki, ensuring maximum operational efficiency while maintaining exceptionally high standards in emission control. These premium engines provide superior levels of power for any burnishing job while offering reduced noise and vibration for added operator comfort and reduced disruption to others in the area. In addition to a rugged cast aluminum deck, all units come complete with burnishing pad, ready-to-fill painted steel propane tank, and 12V battery/key start.

Kawasaki Proglazer® Propane-Powered Floor Machines

Built to last, ruggedly constructed, with 1850 RPM burnishing power.

24" KAWASAKI PROGLAZER® 17HP

28" KAWASAKI PROGLAZER® 17HP

Powerful and versatile

Tornado's® propane burnishers are found in educational, retail, and professional contracting applications where high gloss floors are a requirement of floor cleaning and maintenance programs.

Environmentally Friendly

The units are EPA approved.

FEATURING
KAWASAKI ENGINES

Professional quality

The units feature a 17HP Kawasaki engine. They are available in 24" and 28" models. Electronic shut-off and low oil pressure shut-off are standard features on these units. Rugged and virtually maintenance free, our propane burnishers have excellent oil control, high torque, and cold starting capacity.

Safety

The machines are built with a catalytic converter to help reduce emissions.

Efficient

These burnishers offer a quick return on your investment with high productivity and ease of service. A 24" unit can cover up to 32,000 sq.ft. per hour, while the 28" machine increases coverage to 48,000 sq.ft. per hour. Meanwhile, a maintenance-free drive system and bearing assemble make these units extremely reliable and make service hassle-free. With the quick change fuel tank allowing nearly continuous operation, even the smaller model (24") can out perform six workers each using a 20" traditional low-speed floor machine.

Disc pads

The propanes can be fitted with appropriate pads for all high-speed operations.

PRODUCT SPECIFICATIONS

MODEL	24" PROGLAZER® 17HP	28" PROGLAZER® 17HP
CATALOG NUMBER	97570	97575
ENGINE	17 HP Kawasaki	17 HP Kawasaki
